Art Unit: 3632

This is an office action for serial number 09/406,531
entitled Configurable Mount.

Election/Restrictions

Amended and newly submitted Claims 36, 42, 43, 50, 52-54, 63-67, 69-72, and 74-92 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The claims include the limitation "a plurality of attachment" adapted to be assembled into a plurality of attachment means each a different configuration for attaching said shaft holder to the surface at least one of said attachment comprising the assembly of less than all of the said plurality of attachment components." The applicant has attempted to make the claims generic by adding this limitation to the claim language but, the examiner believes the applicant has made the claims directed to all of the species except for the species II, which applicant elected in paper no. 9. The examiner has interpreted the limitation to mean that at least one element (such as a threaded member (58 or 52) or clamp plate (50) would not be included in the attachment or attachment component. Therefore, the applicant has eliminated the species II originally elected since the attachment components has to include all of the elements of the species as shown in the

Art Unit: 3632

figures 2, 3, 10A-10B, 11A-11B, 12A-12C or the claims are directed to non-elected species.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 36, 42, 43, 50, 52-54, 63-67, 69-72, and 74-92 withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Response to Arguments

Applicant argues that all of the independent claims are generic. The examiner would like to point out that for the reasons discussed above the claims are directed toward a non-elected species only and therefore can not be generic.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

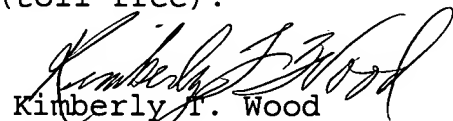

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
